2. main subject exam: the discussion of a topic the student draws and then presents without preparation. The topic is from the general subject area approved by the department and specified on the candidate's thesis title submission form, approved by the head of the department.

(If one of the topics matches the subject of the thesis, that topic is removed from among the list of questions before the candidate draws one).

### Grades received at the Final Examination:

1. grade received for the defense of the thesis
2. grade received for the discussion of a topic during the main subject exam

### Overall result (final grade) of the Final Examination:

### Classification of the Diploma:

The degree certificate states the **weighted average** of the final result of the final examination (A) and the thesis evaluation grade (B) according to the following formula:  $(A*0,45) + (B*0,55)$ .

### Determining the Diploma grade:

Section 84. (6) The diploma is classified according to its average down to two decimals:

- **outstanding (5)**, if the average is 4.80–5.00,
- **excellent (5)**, if the average is 4.50–4.79,
- **good (4)**, if the average is 3.50–4.49,
- **satisfactory (3)**, if the average is 2.50–3.49,
