

Dear Students,

Spring is officially here, and more and more sunny hours with it. It helps us to renew, and work more efficiently. A good energy level is extremely necessary for our graduating students who struggle with the last modifications of their Theses. Good luck for them, fingers crossed.

Easter is also coming soon with the Spring Holiday. Easter is a significant celebration in Hungary, not only for the religious families, but for everyone. You can learn about the Hungarian Easter traditions from this newsletter as well as gain more information on programmes, admission, and you can even meet the English voice behind Budapest transportation.
